

Globlue is a global provider of advanced analytics for use in Law Enforcement, Commercial Fraud Investigations, Counter Financial Crimes, Anti-Money Laundering, Intelligence and Counter-Intelligence Operations, Converged Security, Cyber Intelligence, Insurance Investigations, and Blockchain Solutions. Globlue is headquartered in Houston, Texas with offices in Brazil, Angola, and Portugal. ARKHOS Advanced Analytics for i2 Analyst's Notebook can be tailored and adjusted to your team's needs and strategy as it grows and develops.

Globlue's Mission

At Globlue, our passion is Counter-Fraud and Criminal Analytics! Our mission is to partner with and provide the right tools for our clients in the fight against fraud and crime through top-of-the-line analytics technology, outstanding customer support, and first-class training. We achieve this by consistently advancing our technology and solutions through continuous collaboration with our clients, strategic partners, and industry experts to develop and implement new ideas and techniques to level up in the fight against fraud.

Globlue Customer Support

Globlue provides continuous support for our global customers, including technical assistance and software updates to enhance and expand our analytic solutions.

Training is provided on i2 and ARKHOS to all users. An ARKHOS Analyst Academy subscription is available offering extended training for users ranging from essentials thru advanced skillsets.

Globlue Testimonials

“The ARKHOS TLO i2 Connector represents a collaborative effort between Globlue and TransUnion. Our objective was focused on what an Analyst would need in utilizing skip-tracing data within the powerful i2 platform. We believe customers are going to appreciate this Connector and confirm that we executed on our vision to create a tight integration.” **Aaron Smith VP, TransUnion Innovative Solutions Group**

“ARKHOS provides great insights on detecting and analyzing insurance fraud, by proactively increasing the referral rates while reducing false positives.” **Stephen Spinner, Auto Owners, Manager SIU Analytics**

“ Globlue Technologies did exceptional work on deploying our mission critical National Security Intelligence Center along with key intelligence technologies that enabled us to enhance our special operations .” **Special Agent P.S.**

“ ARKHOS has really helped us with some big cases recently. Many people here are extremely impressed with what the link analysis tool has been able to do for us . ” **SIU Analyst, Major Carrier SIU**

“ The ARKHOS TLOxp i2 Connector has united the power of TLO and i2 Analyst’s Notebook into a remarkable weapon in our fight against insurance fraud. In minutes thousands of entities can be populated on an i2 chart, reconciled, merged with other data, and visually associated with suspicious activities. ” **Michael Krohn, GEICO, Former CHO Operational Analyst**

“ The Globlue team seamlessly integrated the ARKHOS product into our existing suite and has provided hands-on trainings and demos to ensure the staff are informed and capable of using the product (though it is pretty intuitive on its own). ” **Patrick Rottas, MPAA, Intelligence Analyst**

“ ARKHOS TLOxp i2 Connector is a great tool for charting TLO searches. ” **Chere Delco, Houston Police Department, Anti-Gang Division**

“ As a professor, I know how difficult it can be to teach software programs, so I was impressed to see how well our Globlue trainer understood how to convey the training content in an accessible manner. In the future, Globlue will be the first company I think of when I have an interest in i2 solutions. ” **Stephen Coulthart, PH.D., UTEP**
